

# How to add a soft phone

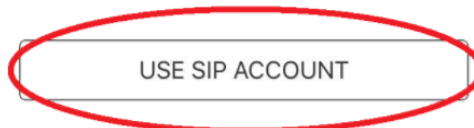

We have tested many types of software and have found that “LinPhone” for iOS and Android works best and we are happy to recommend it to our clients.

How to install and setup LinPhone or another softphone software:

Head to your app store and download the “**LinPhone**” VoIP softphone app,

Once installed, open the app select “**Use SIP Account**”

Next, enter the details from your Kiwi VoIP account

\*Note: Username is the phone number to be used, not your account Number\*

USERNAME  
091234567 ← KiwiVoip Phone number

PASSWORD (OPTIONAL)  
..... ← Account Password

DOMAIN  
sip.kiwivoip.co.nz

After you have entered your details, press “**UDP**” as your transport and then Login

TRANSPORT

UDP	TCP	TLS
-----	-----	-----

LOGIN

Congratulations, you should now have a functioning Kiwi VoIP Softphone
